I WANT YOUR LOVE

chorus

I want your love / And that's all I'll ever need / I want your love / Surrender it to
me / I want your love / Strong enough for you and me / Oh baby come over here /
Let history repeat

One day I woke up / And I said that today's my day / Don't worry about a thing,
it's no sin to let the outside world in / The groove on the street oh / Was taking
me high high high / And then I saw you there with the magic in the air / As you
caught my eye

I have a feeling / That nobody can say I'm wrong / Oh put me on a rocket, one
way ticket to your heart / The groove on the radio / Was making me fly so high /
And then I saw you there with the magic in the air / As you caught my eye

bridge

Cuz this is not the way I fall in love / You might be the devil on the loose / But
cause you're so beautiful I'll just / Give into temptation with you, with you
