

*CHORDS*

Verse & Chorus: F#, G#, Bbm

PreChorus: F#

**PERFECTION**

Shade of my life/You gotta reach reach perfection  
Don't ask me why/I can't get your attention

I got a motivation/I got a feeling now  
I got a new direction/Don't ask me how  
I could be broken-hearted/On the other side of town  
Don't you come near me baby/Get me in trouble now

**chorus**

I gotta wonder how it feels  
And I gotta get you off my mind  
I gotta wonder if it's real  
To go out of your mind cause you can tell he likes to play games

Bring me your fire/We gotta burn this to save it  
Leave your desire/I can't feel what you're saying

You got a problem baby/I got a dream to chase  
No I'm not different honey/I'm just another case  
I could be acting crazy/Give me another day  
But don't you come near me darling/I'll take your breath away

**chorus**

I gotta wonder how it feels  
And I gotta get you off my mind  
I gotta wonder if it's real  
To go out of your mind cuz you can tell she likes to twist things

No one's going to live your life for you  
When you fall you better get up and try it again  
You better believe it baby
