Verse: C#, Fm, D#
PreChorus: D#, Fm... G#, D#, Fm, C#
Chorus: G#, D#, Bbm, C#, D#
Bridge: B, C#, G#, D#, B, C#, Fm, D#

WAKE UP CALL

I try to stay awake / So I don't see your face / Cause when I close my eyes, my dreams
they never let me go / I wanna leave my mind / Feel every space and time / I loved you
when I knew you and you live inside me oh

I wonder if I saw you would it play out like I see / I wonder if I touched you would you die
in ecstasy / I hate you cause sometimes I feel I still still love you / But you're so far behind

chorus

Here's to our / Last wakeup call / If you're gone, it's like I don't wanna move on / Don't
say you / Don't feel at all / Just pick up your wakeup call

Your love was like a drug, I could not get enough / And when you hit me it was like
another world of us / I tried to cherish that, I swore it by the facts / That I would stand
with you when it was good and it was rough

I wonder if I saw you would it play out like I see / I wonder if I touched you would you die
in ecstasy / I hate you cause sometimes I feel I still still love you / But you're so far
behind, I shouldn't care if you're mine

bridge

It doesn't have to be this way / Oh baby I know you love me, I know you don't mean it
when you / Say every everything is over
