Chorus: D#, Bb, Cm, G#

NO OTHER WAY

What does it take just to get you? / I play by your rules, I follow your cues / What
do I do just to have you? / I let you go but you / Don't come home

And please don't make me regret / The things that I said, the things that I
promised you / And please don't let me forget / I go out of my head when I'm not
with you

chorus

I want to run away, I want to find a way / To compromise, cut the ties, I'll love you
till the day I die / Say that you'll take a shot, fight for me until you drop / There's
no other way, no other way to prove your love

Baby sometimes I hear your footsteps / I leave the light on, doesn't comfort me at
all / Baby it's hell in my bedroom / You paralyse my soul / You don't know how
difficult it is for me

Believe, when I wanna go crazy, you see / Listen cuz I just can't breathe, please / I
need you to come home to me
