

REMEMBER ME

For the last time / I got you here / For the first time / You brought me down to
tears

Tell me what am I gonna do?

For the last time / I see you smile / For the first time / We're leaving it behind

Tell me what am I gonna do?

And if I ever see you again

I hope, I hope you remember me / The way I love you tonight

I hope, I hope you remember us / The way before goodbye

It's been the hardest / Mountain to climb / I lost you somewhere out across the
oceans of time

And baby just save my soul tonight

Cause I'd give anything to look into your eyes

Goodbye, goodbye, goodbye / Goodbye, goodbye, goodbye

See you in another life sometime / See you in another life
